

BSPR/EBI Meeting

British Society
for Proteome Research

EMBL-EBI
European Bioinformatics Institute

BSPR/EBI Meeting
Functional Proteomics
Hinxton Hall Conference Centre
Cambridge
On 12 – 13 July 2004

Keynote speakers

Leigh Anderson, Plasma Proteome Institute, USA
Roz Banks, Cancer Research UK
John Cottrell, Matrix Science, UK
David Harvey, University of Oxford, UK
Henning Hermjakob, EBI, UK
Peter James, Lund University, Sweden
Kathryn Lilley, University of Cambridge, UK
Fred Regnier, Purdue University, USA
Robert Tonge, AstraZeneca Pharmaceuticals, UK
Janet Thornton, EBI, UK

Topics

Differential expression analysis
Mass spectrometry
Analysis of post-translational modifications
Protein chips
Biomarker discovery
Bioinformatics
Structural proteomics

Organising committee

Bob Amess
Rolf Apweiler
Mike Dunn
Liz Ford
Steve Pennington
Chris Trand

Functional Proteomics

This is a joint conference organised by the European Bioinformatics Institute and the British Society for Proteome Research.

Proteomics approaches are being increasingly adopted in all areas of life science research as a means of linking genomic data with function at the cell, tissue and whole organism level.

The goal of this conference is to bring together academic and industry scientists who are developing the technologies required for functional proteomics, as well as those who are applying these new tools in their research.

The registration deadline is *Friday 30 April 2004*. For registration and poster abstract submission please visit the BSPR website, www.bspr.org. A limited amount of on-site accommodation is available, which will be allocated on a first-come, first-served basis.

Late registration may be accepted at a higher fee, if the meeting is not oversubscribed.

E-mail: meetings@bspr.org

Venue information: <http://www.hinxton.wellcome.ac.uk>

BSPR is a Registered Charity (UK Charity Number 288127)
